People Served by Both Medicaid and Non-Medicaid Sources	0	0	0	0	0	0	0	0	0	0	0	0	0
Medicaid Status Unknown	0	0	0	0	0	0	0	0	0	0	0	0	0
Total Served	40050	34258	0	1386	1382	0	0	0	0	41436	35640	0	77076

Comments on Data:

* Medicaid status determined by Medicaid Eligibility, not Medicaid paid services.

* The reports shown on this website contain numbers for Indiana residents who are served by the Hoosier Assurance Plan (HAP) and do not contain numbers for all Indiana residents who may receive mental health or addiction services. The HAP is the main method by which the Indiana Division of Mental Health and Addiction can fund community mental health services. As established by the Indiana Legislature, the HAP is designed to support and manage the delivery of behavioral healthcare services to individuals who are in a low income population and who have clearly identified mental health needs.

* The reports span an entire fiscal year (7/1/XXXX - 6/30/XXXX).

* Persons with a diagnosis of only substance abuse or mental retardation are not included in these reports. Therefore, persons with a co-occurring diagnosis of mental illness and substance abuse or mental retardation are included.

* The results of this report were determined by placing consumers with a Medicaid ID number in the 'Medicaid Only' row, and consumers without a Medicaid ID number into the 'Non-Medicaid Only' row.

* This report currently contains data from the Community Services Data System (CSDS) and Creative SocioMedic's - Behavioral Health Information System's - Decision Support System (DSS).
